

Heatshrink solutions
Insulate, identify and
protect your wires and cables

Power and productivity
for a better world™

ABB

Shrink-Kon®

To insulate and protect cables

ABB has you covered when it comes to insulation !

- Easy to use
- Heat shrinkable
- Heavy, medium and thin wall products

Shrink-Kon® Thin Wall Tubing

Manufactured from crosslinked Polyolefin, these products are used to insulate bare Sta-Kon® and Color Keyed® connectors and splices. They also provide a degree of strain relief and may be used to harness wires. Available in cut pieces or reels.

Featured Products Include:

- Single wall non-lined 2:1 and 3:1 thin wall tubing
- 3:1 and 4:1 dual wall adhesive lined thin-wall PKG series provides excellent flexibility with environmental sealing capability
- Transparent heat shrink tubing for use on power connections and data connections
- Zero Halogen and flame retardant version for use in contained areas

Shrink-Kon® Medium Wall Tubing

More flexible than heavy-wall products, with excellent resistance to impact and abrasion.

- Seals and protects cable splices and terminations
- Thermoplastic adhesive liner guarantees complete environmental protection and insulation

Thick Wall Shrink-Kon® Heat-Shrinkable Insulators

When it comes to moisture-proofing connections and terminations, ABB's heat-shrinkable tubing, cable breakouts and end caps have proven themselves over years of service to the industry. Made of thermally stabilized cross-linked polyolefin, these heat-shrinkable insulators can be used over lead, steel, aluminum, copper, standard plastic, and elastomeric insulating materials.

ABB heat-shrinkable insulators are designed to be easy to use. They provide an appropriate level of insulation and abrasion protection.

Thomas & Betts - A Member of the ABB Group

Since June 2012, Thomas & Betts (T&B) is a Member of the ABB Group. ABB is a leading power and automation technology group, active in more than 100 countries with about 150.000 employees worldwide.

With Thomas & Betts, this portfolio will is now completed with the following product lines and flagship brands:

- *Wire & Cable Management* - Ty-Rap® and Ty-Met® cable ties, Shrink-Kon® heat shrink, T&B Cabletray
- *Cable Protection Systems* - nylon & metallic incl. brands: PMA, Adaptaflex, Kopex, Harnessflex
- *Low Power Connection & Control* - Furse lightning & surge protection, Elastimold, Joslyn Hi-Voltage
- *Emergency lighting* - emergency lighting, battery systems incl. VanLien, Kaufel, Emergi-Lite brands
- *Hazardous location products* – DTS explosion proof light & boxes, Kopex-Ex conduits & fittings

Selection guide

Shrink-Kon® - Heat shrink technologies

Product type	General description	Typical application
	Multipurpose tube in flexible polyolefin	General purpose, flexible heat shrink tubing for the protection, insulation and bundling of cables
	Multipurpose tube in flexible polyolefin-Dual listed	Typical applications are mechanical and electrical insulation, corrosion protection, bundling, mechanical protection and much more
	Multipurpose tube in flexible polyolefin-Dual listed	Typical applications are insulation, corrosion protection, component strain relief and connections in applications requiring the highest specifications (e.g. aeronautical and military)
	Striped green and yellow, flexible polyolefin	For identifying and marking earthing connectors and cables
	Very flexible polyolefin, high shrink ratio	For highly contoured components with large diameter variations. Green and yellow for earthing applications
	Flexible polyolefin, High shrink ratio, adhesive bonds to plastics, rubber, neoprene, steel and polyethylene	Adhesive-lined heat shrink tubing ideal for a moisture-resistant insulation
	High specifications, semi-rigid Kynar®* heat shrink tubing with excellent mechanical and electrical insulation performance	Ideal for specific applications where mechanical and chemical protection are required. Enables see through inspections
	High flexibility Viton™** fluoroelastomer for enhanced protection in extreme electrical, chemical and thermal environments	Its specificity make it the product of choice for heavy-duty conditions e.g. sensors in vehicle engine compartments
	Medium heat shrink tubing ideal for the protection of cable joints and terminations in low voltage power applications	For a variety of low voltage applications where lighter weight and greater flexibility are important
	Thick wall heat shrink ideal for underground low voltage power applications and terminations	This heavy wall product provides maximum reliability for insulating and protecting cable joints
	Medium and heavy wall cable jointing kit for polymeric insulated cables	Low voltage jointing applications
	Medium and heavy wall adhesive lined heat shrink cable breakouts	To insulate and seal low voltage cable
	Medium and heavy wall adhesive lined heat shrink end caps	To seal and protect cable-ends against the ingress of moisture and contamination
	Self-amalgamating tape which provides a thick insulating layer	Flawless electrical stability and for long term resistance to moisture penetration

* Kynar® is a registered trademark of ATOFINA

** Viton® is a registered trademark of DuPont de Nemours

*** except transparent version

Heat Shrink Tubing Comparison Chart				
Characteristics	Shrink ratio	Temperature range	Flame rating	Certification(s)
Single wall	2:1	-55°C to +135°C	Flame retardant***	
Single wall	2:1	-55°C to +135°C	Flame retardant***	UL, CSA
Single wall	2:1	-55°C to +135°C	Flame retardant***	UL, CSA, MIL
Single wall	2:1	-55°C to +135°C	Flame retardant	MIL
Single wall	3:1	-55°C to +135°C	Flame retardant***	MIL
Dual wall	3:1 and 4:1	-55°C to +110°C (outer jacket)	Flame retardant***	
Non polyolefin: crosslinked polyvinylidene fluoride (Kynar®*)	2:1	-55°C to +175°C	High flame retardancy	MIL
Non polyolefin: crosslinked fluoroelastomer (Viton®**)	2:1	-55°C to +220°C	High flame retardancy	MIL
Medium wall	3:1	-55°C to +110°C	Non Flame retardant	
Thick wall	3:1	-55°C to +110°C	Non Flame retardant	
Medium and thick wall	3:1	-55°C to +110°C	Non Flame retardant	
Medium and thick wall	>2:1	-55°C to +100°C	Non Flame retardant	
Medium and thick wall	>2:1	-55°C to +100°C	Non Flame retardant	
EPR based tape	1:3	-55°C to +105°C	Flame retardant

- C = 0,6 m cut lengths
- D = box
- E = mini-reels

* Not necessary for PLG-HSB boxes

Type PLG - HSB boxes

Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

- PLG heat shrink tubing in a compact, handy sized box used for electrical maintenance and repair
- Convenient amount of heat shrink, for small users
- Offered in 10 sizes to cover a heat shrink range from Ø 1.2 mm to Ø 25.4 mm
- Stackable boxes for easy storage
- Flexible, rapid shrinkage, non-melting for effective electrical insulation
- Flame retardant
- Available colours: see below (see page 6 for product reference structure)

Technical Information

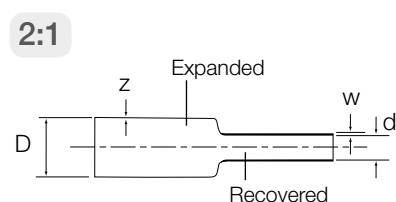

Wall thickness	Thin
Shrink ratio	2:1
Tube characteristics	Single wall
Temperature range	-55°C to +135°C
Shrinking temperature	+110°C
Material	Crosslinked polyolefin
IP rating	IP60
Standard colour	Black
Other properties	Silicone, Cadmium and Lead free Transparent version: Halogen free

Shrink-Kon® Set

Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

- A kit comprising PLG heat shrink with or without hot air tool in a handy carry case
- Maintenance and repair, research and development, small series manufacture and much more
- 9 different expanded diameters
- 6 different colours
- 23 types
- Flame retardant
- Case made from shock-resistant plastic
- All types available in refill packages
- **Product Ref.: SK-1400GTG** (with GR121)
- **Product Ref.: SK-1400GTG-UK** (with GR321)
- **Product Ref.: SK-1400G** (without hot air tool)

2:1

Type CMP - dual listed

Shrink-Kon® - Thin wall heat shrink tubing

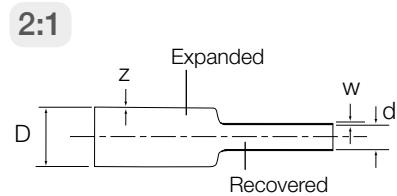

Characteristics

- Typical applications are mechanical and electrical insulation, corrosion protection, bundling, mechanical protection and much more
- Internal diameters from 1.2 mm to 25,4 mm
- Flame retardant
- Flammability per UL 224
- The tubing is marked
- Available colours: see below (see page 6 for product reference structure)

Technical Information

Wall thickness	Thin
Shrink ratio	2:1
Tube characteristics	Single wall
Tube length	1.22 m
Temperature range	-55°C to +135°C
Shrinking temperature	+110°C
Material	Crosslinked polyolefin
IP rating	IP60
Standard colour	Black
Other properties	Silicone, Cadmium and Lead free Transparent version: Halogen free

* Transparent version not UL recognized

Type MLP - flexible for high specifications

Shrink-Kon® - Thin wall heat shrink tubing

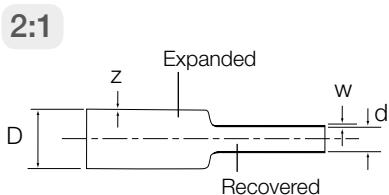

Characteristics

- Typical applications are insulation, corrosion protection, component strain relief and connections in applications requiring the highest specifications (e.g. aeronautical and military applications)
- Internal diameters from 1.2 mm to 25.4 mm
- Dual Listed
- Meets MIL-DTL-23053/5 requirements, Class 1 and Class 2
- Weather UV-resistant
- Good chemical resistance
- Flame retardant
- Available colours: see below (see page 6 for product reference structure)

Technical Information

Wall thickness	Thin
Shrink ratio	2:1
Tube characteristics	Single wall
Tube length	1.22 m
Temperature range	-55°C to +135°C
Shrinking temperature	+90°C
Material	Crosslinked polyolefin
IP rating	IP60
Standard colour	Black
Other properties	Silicone, Cadmium and Lead free Transparent version: Halogen free

E79546

Type GYS - flexible green and yellow Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

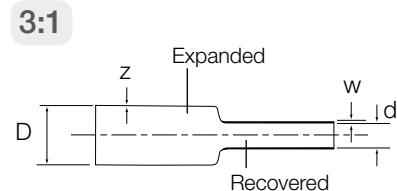

- For identifying and marking earthing connectors and cables
- Mechanical and electrical insulation, corrosion protection
- Internal diameters from 3.2 mm to 25.4 mm
- Flame retardant
- Meets MIL-DTL-23053/5 requirements, Class 1 and Class 2 (see page 6 for product reference structure)

Technical Information

Wall thickness	Thin
Shrink ratio	3:1
Tube characteristics	Single wall
When sold in cut lengths	
Tube length	1.22m
Temperature range	-55°C to +135°C
Shrinking temperature	+90°C
Material	Crosslinked polyolefin
IP rating	IP60
Standard colour	Green / Yellow striped
Other properties	Silicone, Cadmium and Lead free

Type GYS - HSB boxes

Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

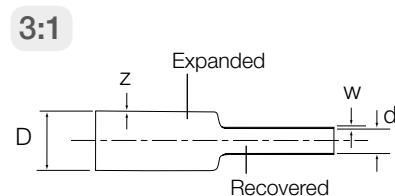

- For identifying and marking earthing connectors and cables
- GYS heat shrink in a compact, handy sized box
- Convenient amount of heat shrink, for small users
- Offered in 7 sizes to cover a heat shrink range from 3.2 mm to 25.4 mm diameters
- Stackable boxes for easy storage
- Flame retardant
- Meets MIL-DTL-23053/5 requirements, Class 1 and Class 2
- Mechanical and electrical insulation, corrosion protection
(see page 6 for product reference structure)

Type PIG - very flexible for highly contoured components

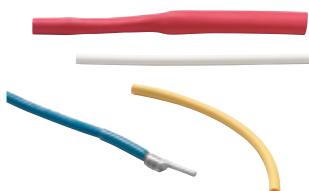

Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

- Heat shrink tubing to enclose highly contoured components with large diameter variations.
- Provides mechanical and electrical protection
- Meets UL 224 requirements
- Internal diameters from 1.6 mm to 38.1 mm
- Excellent mechanical strength
- Resistant to common fluids and solvents
- Flame retardant
- Meets MIL-DTL-23053/5 requirements, Class 1 and Class 2 (except green / yellow version)
- Available colours: see below (see page 6 for product reference structure)
- Special colours available on request

Type PKG - flexible for moist environments

Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

- Crosslinked modified Polyolefin with thermoplastic adhesive lining
- Particularly suitable for corrosion and damp protected casings as well as highly contoured components
- Flame retardant
- Moisture resistant, good chemical resistance
- High mechanical stability
- The high shrink ratio and flexibility of this range allows the user maximum coverage with minimal parts
- The adhesive lining bonds to plastic, rubber, neoprene, steel and polyethylene
- Available colours: see below (see page 6 for product reference structure)

3:1

Type KYN - semi-rigid transparent

Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

- In areas of heavy mechanical loads, high temperatures and chemical stress. Insulation in densely packed wiring, in heating elements and much more
- Internal diameters from 1.2 mm to 25.4 mm
- High mechanical strength
- Excellent electrical insulation performance
- High flame retardancy
- Highly abrasion and cut resistant
- Resistant to Diesel
- Very good resistance against chemicals and solvents
- Meets MIL-DTL-23053/8 requirements

Technical Information

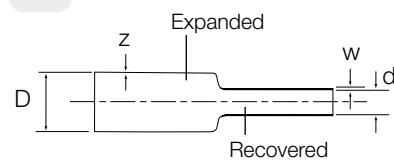

Wall thickness	Thin
Shrink ratio	2:1
Tube characteristics	Single wall
When sold in cut lengths	
Tube length	1,22 m
Temperature range	-55°C to +175°C
Shrinking temperature	+175°C
Material	Crosslinked and rigid Polyvinylidene Fluoride (Kynar®*)
IP rating	IP60
Standard colour	Transparent
Other properties	Silicone, Cadmium, Lead and Halogen free

Type VIT - highly flexible, flame retardant

Shrink-Kon® - Thin wall heat shrink tubing

Characteristics

- High flexibility makes it suitable even under heavy-duty conditions e.g. sensors in vehicle engine compartments
- Excellent strength and resistance against corrosive fluids even at high temperatures
- Internal diameters from 3.2 mm to 38.0 mm
- Offers excellent resistance to aggressive fuels and chemicals
- High flame retardancy
- Meets MIL-DTL-23053/13 requirements

Technical Information

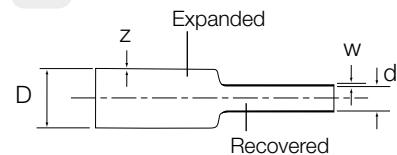

Wall thickness	Thin
Shrink ratio	2:1
Tube characteristics	Single wall
Temperature range	-55°C to +220°C
Shrinking temperature	+175°C
Material	Viton®, Crosslinked fluoroelastomer
IP rating	IP60
Standard colour	Black
Other properties	Silicone, Cadmium and Lead free

*Viton® is a registered trademark of DuPont.

Type TBM - rated for 600V, 90°C continuous use

Shrink-Kon® - Medium wall heat shrink tubing

Characteristics

- High flexibility makes it suitable even under heavy-duty conditions e.g. sensors in vehicle engine compartments
- Excellent strength and resistance against corrosive fluids even at high temperatures
- Internal diameters from 10.2 mm to 228,6 mm
- Offers excellent resistance to aggressive fuels and chemicals
- High flame retardancy
- Meets MIL-DTL-23053/13 requirements

Technical Information

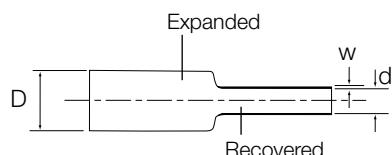

Wall thickness	Medium
Shrink ratio	3:1
Tube characteristics	Dual wall
Temperature range	-55°C to +110°C
Shrinking temperature	+120°C
Material	Crosslinked polyolefin with thermoplastic adhesive liner
IP rating	IP67
Standard colour	Black
Other properties	Silicone, Halogen, Cadmium and Lead free

Product Ref.	Expanded diameter as supplied D [mm]	Fully recovered diameter d [mm]	Wall thickness after shrinking w [mm]	Length per bag [m]	Quantity per bag [pieces 1.22m]

Don't stock at temperatures over 40°C. Don't expose directly to sun rays for long periods.

3:1

Type TBW - rated for 600V, 90°C continuous use

Shrink-Kon® - Thick wall heat shrink tubing

Characteristics

- TBW is an excellent product for sealing and insulating cable splices, connections, terminations and jacket repairs.
- The tubing is designed to withstand the severe mechanical requirements of submersible and direct-buried installations
- Low voltage power applications 600V
- High resistance to abrasion, corrosion and chemicals
- Excellent weatherability
- 9 standard sizes in thick wall: internal diameters from 8.9 mm to 119.9 mm
- Meets requirements of ESI 09-11

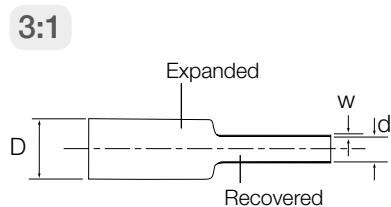

Technical Information

Wall thickness	Thick
Shrink ratio	3:1
Tube characteristics	Dual wall
Temperature range	-55°C to +110°C
Shrinking temperature	+120°C
Material	Crosslinked polyolefin with thermoplastic adhesive liner

Do not stock at temperatures over 40°C. Do not expose directly to sun rays for long periods.

Low voltage kits up to 600V

Shrink-Kon® - Medium and Thick wall heat shrink tubing

Characteristics

- VMS heat shrinkable sleeves (TBM and TBW) are suitable for jointing multi-core, polymeric insulated energy cables in the low voltage range
- Quick, simple installation
- Exceptionally good electrical insulation and environmental protection
- Good mechanical load-bearing ability
- No maintenance time necessary
- Unlimited storage life
- Tested to DIN 47632 / VDE 0278 Part 1 and 3

Standard Content

- 1 Outer sleeve (TBW)
- 4 Inner sleeves (TBM) for VMS2 to VMS9, 5 inner sleeves for VMS1
- Cleaning cloths
- Abrasive cloth
- Installation instructions

3:1

Type TEB - cable breakouts

Shrink-Kon® - Medium and Thick wall heat shrink tubing

Characteristics

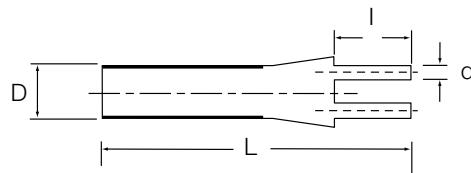

- Cable Breakouts are designed for the insulation and sealing of cable crutches
- They offer extreme strain relief and mechanical protection
- Adhesive line provides complete sealing
- UV-resistant
- They also provide good insulation and resistance to common fluids and solvents

Technical Information

Wall thickness	Medium and thick
Shrink ratio	Various
Tube characteristics	Dual wall

Type TEC - end caps

Shrink-Kon® - Medium and Thick wall heat shrink tubing

Characteristics

- End Caps are designed to seal and to protect cable-ends against the ingress of moisture and contamination
- They offer extreme strain relief and mechanical protection
- Adhesive line provides complete sealing
- They also provide optimal sealing and resistance to chemicals and solvents
- UV-resistant

TBTA-ZH - self amalgamating tape

Shrink-Kon® - Heat shrink technologies

Characteristics

- Self amalgamating tape
- ABB TBTA-ZH tape provides a thick insulating layer with flawless electrical stability and a long term resistance to moisture penetration, which demands waterproofing
- To repair and maintain cable sleaving up to 30 Kv
- For installations, where open flame and heat may not be used
- Excellent resistance to UV rays and Ozone
- Easy to apply - no tools or heating required
- Excellent protection at low temperatures

TBTA-ZH must be stretched on application for the self-adhesive properties to be activated.

Installation notes

1. The surface of the connection and the cable entry must be clean
2. TBTA-ZH should be used under high tension as the stretching process activates the adhesive
3. By wrapping the TBTA-ZH tape around the cable, a sealed casing is created
4. If a cable or pipe needs protection, the TBTA-ZH tape should be wrapped around itself twice at the beginning point and then should overlap throughout by 50%. This means that the tape will also stretch when the cable is under tension
5. Finally, the surface (see point 4) should be covered once more using 100% tape overlap
6. At the end, the tape should be held at the overlap point and torn off
7. To conclude the installation, the ripped off end should be pressed firmly to close.

Technical Information

Stretch ratio	3:1
Temperature range	-55°C to +105°C
Material	EPR based tape
IP rating	IP67
Standard colour	Black
Other properties	Silicone, Halogen, Cadmium and Lead free

Hot air tool

Shrink-Kon® - Heat shrink technologies

Characteristics

The Hot Air Tool from ABB achieves a rapid shrink action. This tool is ideal for industrial and military applications.

Technical Information

Property	Typical performance
Power Consumption	1400W
Temperature	+350°C to +500°C
Air Flow	350 / 500 l/min
Static pressure max.	1250 Pa
Weight	570 g
Electronics	Flicker-conformity

Product Ref.	Description
GR121	Hot Air Tool (European Plug and WT993GR nozzle)
GR321	Hot Air Tool (UK Plug and WT993GR nozzle)
WT992GR	Wide slot nozzle
WT993GR	Reflector nozzle
WT994GR	Reduction nozzle Ø 20mm
WT995GR	Welding nozzle
WT996GR	Overlap welding nozzle
WT999GR	Glass protection nozzle
